

What's to be done with the attached emergency care cover letter and instruction sheets?

Dear Adrenal Insufficient (AI) Patient or AI Caregivers/Guardians:

The attached NADF Emergency Care cover letter and instruction sheets are meant to be:

- 1.) personalized with the AI patient's information
- 2.) multiple copies made
- 3.) distributed to any and all emergency care facilities, both stationary and mobile, located in the AI patient's residential area.

We also suggest that copies be kept in purses/wallets, cars, work desks and at home. These sheets could help emergency healthcare providers save your or your loved one's life.

Supplied as a service by:
