

## Letter to Request Patient Enrollment:

We are grateful for your interest in an upcoming research program to support patients with Primary or Secondary Adrenal Insufficiency (PAI or SAI).

Over the past 2 years, a bio-pharmaceutical company has been working on a proprietary drug device to provide a liquid stable form of Hydrocortisone. Using an auto-injector, this drug-device combo will be for patients who are in acute need of additional Hydrocortisone.

The study will be running during the weeks of September 12, 19 and 26<sup>th</sup> (including Saturdays if necessary). We are looking for volunteers with PAI or SAI who maybe willing to travel to the cities of Philadelphia or Chicago for a one-day study (any day during the weeks listed when the volunteer is available). During this study, you will be asked to use the auto-injector to inject a mannikin (a model of the human body used in scientific research) to study the use of the device. There will no requirement for you to “take” this medication. This study is purely to evaluate how the device is used, and if the supporting instructional materials (i.e. the instructions for use (IFU) and on-device label) can be used safely and effectively by the intended users, for the intended uses and in its intended use environment. All patients that are chosen to participate in the study may be eligible to be reimbursed for their time and travel.

If you, a family member, or any other patient you may know would like to learn more or may want to participate please contact Jessica Kenney of JKonsultingRN at 908-461-4186 or by e-mail at [JKonsultingRN@gmail.com](mailto:JKonsultingRN@gmail.com). By contacting JKonsultingRN, you authorize JKonsultingRN to use and disclose any personal health information or other personal information that you disclose to JK Consulting, including to further disclose such information to the research organization conducting the study for further screening. The personal information may include your name, contact information, age and/or diagnosis of PAI or SAI. JKonsultingRN and the research organization conducting the study may use this information to determine if you are eligible for the study. Please note this authorization does not expire. However, you may revoke this authorization by providing written notice to JKonsultingRN at [JKonsultingRN@gmail.com](mailto:JKonsultingRN@gmail.com). If you revoke this authorization, please note that you will not be eligibility to participate in the study.

We truly appreciate the support of your community.

Warm Regards,

Jessica Kenney, RN
